GOLD RESOURCE CORPORATION BEGINS COMMISSIONING ITS EL AGUILA PROJECT MILL

DENVER – December 9, 2009 – Gold Resource Corporation (GRC) (OTCBB: GORO, FRANKFURT: GIH) reports that commissioning of the initial flotation circuit is underway at its El Aguila Project mill in the southern state of Oaxaca, Mexico.

Gold Resource Corporation's President, Mr. William W. Reid stated, "The commissioning of our El Aguila Mill has begun. We have initiated startup of our diesel generated power plant. The large ball mill, the initial flotation circuit and the concentrate filter press are in final shakedown as well. We target first concentrate production soon and if everything goes well this could be before the end of the year."

Mr. Reid continued "This is an exciting time for Gold Resource Corporation, its shareholders and its employees. We have come a long way in a short amount of time. We expect to emerge as a low cost producer and be in the position to take advantage of these historically high gold prices."

About GRC:

Gold Resource Corporation is a mining company focused on production and pursuing development of gold and silver projects that feature low operating costs and produce high returns on capital. The Company has 100% interest in four potential high-grade gold and silver properties in Mexico's southern state of Oaxaca. The company has 46,095,489 shares outstanding and no warrants. For more information, please visit GRC's website, located at www.Goldresourcecorp.com and read the Company's 10-K for an understanding of the risk factors involved.

This press release contains forward-looking statements that involve risks and uncertainties. The statements contained in this press release that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. When used in this press release, the words "plan", "target", "anticipate," "believe," "estimate," "intend" and "expect" and similar expressions are intended to identify such forward-looking statements. Such forward-looking statements include, without limitation, the statements regarding Gold Resource Corporation's strategy, future plans for production, future expenses and costs, future liquidity and capital resources, and estimates of mineralized material. All forward-looking statements in this press release are based upon information available to Gold Resource Corporation on the date of this press release, and the company assumes no obligation to update any such forward-looking statements. Forward looking statements involve a number of risks and uncertainties, and there can be no assurance that such statements will prove to be accurate. The Company's actual results could differ materially from those discussed in this press release. In particular, there can be no assurance that commercial production at the El Aguila Project will be achieved in the time frames estimated, at the rates and costs estimated, or even at all. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the company's 10-K filed with the Securities and Exchange Commission
